DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 07/11/05 has been entered.

Allowable Subject Matter

2. Claims 1-29 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 9, and 25, the closest prior arts of record issued to Aras and Ellis fails to either alone or combine to teach or suggest a system, an apparatus and its corresponding method comprising a first processor, a VOD content decoder coupled to the first processor, a video and audio formatting processor coupled to the first processor and the content decoder, and an index memory coupled to the first processor, wherein the index memory stores a plurality of VOD program segment representations of at least one partial VOD content based on at least one user selectable recording of the at least one partial VOD program content where the at least one partial VOD program has already been viewed, and each of said plurality of VOD program segment representations is an identifier identifying a VOD program, a date of the VOD program originally aired, a start time and a stop time of a user selectable recording of a VOD program segment

Art Unit: 2611

Regarding claims 17 and 21, the closest prior arts of record issued to Aras and Ellis fails to either alone or combine to teach or suggest a system, an apparatus and its corresponding method of a VOD program from a VOD service provider from a set top box together with the additional technique of "storing the VOD program identifier encoded digital representation and the start and stop digital representation as a single identifier in an index memory".

Aras uses at least a minimum of two or more identifiers for identifying a program and sub-portions of the program, and Aras does not include the date of the VOD program originally aired and the start time and the stop time of the program segment within a single identifier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
